

OPEYEMI
EMMANUEL
MUYIWA

Web developer

PROFILE

I am enthusiastic about problem solving via critical thinking and collaboration. I enjoy innovating processes, I believe I am also creative and could lead when given the opportunity to do so.

I don't consider myself very good at Graphics design but I can use Corel draw and GIMP conveniently for editing and little designs (Posters majorly)

HOBBIES

Reading

Watching anime

Learning new stuffs

EDUCATION

University of Ilorin

2015 - date

Part 5 student of Pharmacy.

WORK EXPERIENCE

BMP car

2021

I work as a Full stack developer and helped to complete the car ordering and sharing App within the specified time affording them to launch on schedule and also upgrade the Admin section of their website.

Takeaquiz

2020

The Takeaquiz is a quiz web app that allows tutors to set quizzes both MCQ and Theory. The marking process is automated for the MCQ while the Theory Answers are in PDFs for marking and storage reducing time for marking MCQ scripts and invigilation time and stress. It was used to take multiple tests from Kogi state University but was discontinued following 2021.

SKILLS

Programming Languages

PHP

HTML 5

MYSQL

Javascript

CSS3

Frameworks

Laravel

Bootstrap, Foundation

Jquery, Angular Js, Vue Js
